Dear Councillor

I am writing on behalf of [name of your group, club or society]. We are working together to create a greener future for our community and want to share our ideas with you.

[Name of your group, club or society] is taking part in the Every Action Counts initiative. This means we are taking simple actions which will help our members to protect the environment, both in [name of your local area] and globally. Our efforts are being matched by hundreds of other similar community groups, clubs and societies across the country who are all making every action count.

We feel that the Sustainable Community Strategy for our area is an important plan and one which should help set out a greener future for all our community. Local councils and other local service providers can work together and really help communities to make their own actions count.

We have discussed our own ideas about what the council and other local agencies could do by working together to help create a greener future. The three most important ideas were:

- 1) [Write your idea here]
- 2) [Write your idea here]
- 3) [Write your idea here]

We would be very happy to tell you more about the simple actions we ourselves are already taking to make every action count towards a greener environment. Please contact me if you would like to arrange a meeting.

Yours sincerely
